**Suggested serving temperature:** 10-11 °C/50.00-51.80 °F

*A curiosity: **why the name «Capriccio»?** The Italian word "Capriccio" has two main meanings: literally, it is an extravagant or bizarre desire or idea, pursued with obstinacy or stubbornness; while in the musical language it identifies a free and varied composition, in which the author can manifest his ingenuity and his imagination, going "out-of-the-box". So, Niccolò and Daniel, the owners of Terre di PerseTO, have stubbornly pursued the idea of making a white IGT wine, which was a bizarre idea since the winery, before the 2022 harvest, had never ventured with a white wine, which is why Niccolò and Daniel had to put all their stubbornness into this project, but also all their ingenuity and experience, with a pinch of imagination, thinking "out-of-the-box" in order to obtain a white wine that will certainly surprise you: intensely fruity, markedly fresh and pleasantly persistent.*
